

# Defining Sustainable Scenarios of Development in San Martin, Peru

Shelbie Draper

MSUS Culminating Experience

SOS 593 Applied Project

25 April 2019

# Coffee in Peru

---

# The Sustainability Problem

- Unsustainable farming practices
  - Deforestation
- Local farmers and communities
- Protection zones
- Maintaining Livelihoods

# Project Intentions

- Scenario Workshop
  - Agenda for the Workshop
- Conservation International
  - Miroslav Honzak & Percy Summers

# Project Outcomes

- Designated date and location
- Agenda for the workshop
- Finalized stakeholder questions

# Lessons Learned

- Difficulty of securing a date due to outside forces
- The need for project and time management
- Event-planning

# Call to Action

- Student work after the workshop
- Monitoring and evaluation
- Continued support and action in the region

Thank You
