

MARCH MAMMAL MADNESSES

"If you're learning, you're winning!"

Phylogeny of Contestants (2013-2024)

by Albert Chen (@albertonykus)

For additional participants, see updates on my Instagram (@albertonykus) and Twitter (@albertonykus). The tree is based on the most recent available data as of 2024. Species names are in italics. The tree is rooted at the top left. The tree is color-coded by major groups. The tree is rooted at the top left. The tree is color-coded by major groups. The tree is rooted at the top left.
