

Possible Education Futures Labs

Connect with global participants. Explore ideas.
Tinker with projects. Imagine new futures for education.

AI and Special Populations

How can we apply AI research to teaching and learning of special populations, including special education, minorities and foreign language learners?

UDL to Support Positive Diverse Communities

How can we use Universal Design for Learning (UDL) to design classrooms that support diverse student populations from PK-higher education?

Equipping, Enabling, and Empowering Teachers from Alternative Pathways

How can we enhance the capabilities of alternatively certified and career-changing educators?

EMI-English as the Medium of Instruction

How can we approach this thorny issue as many underpinnings are at stake in the local contexts?
