^a DDT, dichlorodiphenyltrichloroethane; 1,4D, 1,4-dioxane; NM, nanomaterials; NDMA, nitrosodimethylamine; MTBE, methyl *tert*-butyl ether; MP, microplastics; PC, perchlorate; TCAA, trichloroacetic acid; TCC, triclocarban; TCE, trichloroethylene; TCS, triclosan. N/A, not applicable.

^b Nanomaterials, microplastics and prions do not feature unique CAS numbers, which precluded them from entering the search algorithm that produced most of the data in this Table. For the convenience of the reader, key references are provided for unpopulated data fields.
