The University of Chicago

Dear Conklin

Just a word

to say I have welcome news
from Macfarlane. He finds
from my letter to him that he
was mistaken in most things,
and he is now ready to help
a week, as he first agreed. This
is a great relief.

Yours truly

C. D. Whitman

P. S. Did you give me two
plates on fertilization last summer?
I find 2 very long plates without
any name, and I cannot locate
them. They are at work on
them in Germany, and I want
to know who owns them as soon
as possible.
