

Columbia University  
College of Physicians and Surgeons

630 WEST 168<sup>TH</sup> STREET, NEW YORK  
DEPARTMENT OF ANATOMY

Oct. 2nd 30

Dear Hamburger,

Could you advise me just when you expect to be in New York. I have a good many plans for the next few weeks and I want to be sure to be here when you come.

I have consented to conduct a symposium at the X'mas meetings of the Amer. Soc. Zool. which will be held at Boston, Dec. 28, 29, 30. The symposium will be on Growth and Development of the Nervous System. I am anxious for you to participate in this matter. I have also asked Dr. Coghill and Dr. Stone, both of whom have consented. If you will cooperate in this matter, as I hope you will, I will want the title of your paper not later than Nov. 1st. If there are four speakers, each person will be given about 30 minutes. Please send your acceptance as soon as possible. With us four and others for informal discussion we should have a very fine symposium.

When you come to New York to see me, we can ~~##~~ talk the matter over in detail.

With best wishes,

Sincerely,

*Detwiler.*
