Dear Dr. Rugh:

Thanks for your letter of October 10. It is perfectly all right with me to use the stage series in the revised edition of your book on Experimental Embryology. I have not been in contact with Howard Hamilton for a long time and I could not tell you where to get in touch with him. I think the Secretary of his Department should know.

I would appreciate it if you would return the prints, after they have been used. There is no hurry.

With my best regards,

Yours,

Viktor Hamburger
