Dr. H. Burr Steinbach  
Department of Zoology  
Washington University  
Saint Louis, Missouri

Dear Burr:

Thanks for your letter with the exciting news. I had been planning to come back by the end of next week - that is, the 30th or 31st of July, but perhaps I can speed it up. The course ends next Friday, the twenty-third. I had planned to go to Canada for two days early next week, to see Holtfreter, but may drop that.

I don't see any reason why you should change your plans. I am sure that with Stalker, Carson and Gillette I can handle the situation, particularly since I don't expect that all of these 150 students will take biology right away. I shall write Dean Bowling now, and give him every assurance of our readiness.

No news from here. The weather is wonderful, and the water wet and warm!

Greetings,

Viktor
