

Tile Barn,
ALFRISTON, Sussex.

21st August 1967.

Professor Viktor Hamburger,
Washington University,
Department of Biology,
ST. LOUIS, MISSOURI 63130.

Dear Professor Hamburger,

I was indeed extremely interested in the manuscript of the talk you gave on the Organiser in 1955. I read it with the greatest of interest, and it is extremely valuable to me in assessing the general development and status of the theory in your eyes. I am indeed most grateful to you for your kindness and thoughtfulness in sending it on.

I have now transcribed our interview, and in the Fall will be sending it to you asking you to be good enough to read it over, comment on it, and indicate whether or not you would permit me to quote from it at certain stages that I will underline. I do hope you have had a pleasant summer.

With kindest regards.

Yours sincerely,

June Toulmin
