Dr. Paul Weiss
University of Chicago
Chicago, Illinois

Dear Paul:

The graduate students tell me they would like to take you to dinner Thursday night and have written you to that effect. They are a nice bunch and I'm sure you would enjoy getting acquainted with them.

I'm enclosing copies of material sent to Butler. I still haven't had time to digest the matter thoroughly. Chicken pox in the house now!

Best regards,

H. B. Steinbach
