THOMPSON BIOLOGY LABORATORY  
Tel. (413) 597-2126

March 11, 1975

Professor V. Hamburger  
Department of Biology  
Washington University  
St. Louis, Missouri 63130

Dear Professor Hamburger:

This is to confirm your visit to give an IBM-sponsored lecture in the Department of Biology at Williams College on April 24 and 25. As I mentioned in a previous correspondence the IBM Lecture Fund will pay all travelling expenses, accommodation expenses at Williams, and provide an honorarium of \$200.

With regard to travelling arrangements, you may want to travel by air to Albany airport where you could be met and transported the remaining 40 miles to Williamstown either by myself or a colleague. It would be very nice if you could arrive in Williamstown late morning or early afternoon of Thursday, the 24th and give an afternoon seminar at 4:30-5:30 p.m. I would also be very pleased if you could present a lecture to a group of undergraduates, particularly to those who are currently taking my Biology 202 (Comparative Animal Physiology) course on Friday at 11:00 a.m. I hope these times and dates are suitable for you? Please let me know if I can be of any assistance in your travel arrangements. We will arrange for accommodations at the Williams Inn in Williamstown during your stay.

It would be very nice if you could provide me with definite titles for one or both of these talks as soon as possible. It is customary for the IBM Lecture Fund to release to the local press background information on the IBM speaker and I would be very pleased if you could provide me with a brief biographical sketch so that we could publicize your visit more widely.

We are all greatly looking forward to your visit. Please don't hesitate to ask for any assistance that you might need in making travel arrangements, etc.

With best wishes,

Yours sincerely,

*Ted Woodcock*

A. E. R. Woodcock  
Assistant Professor of Biology
